## Designers Gallery MonogramWorks

We had a great demo of MonogramWorks in June at our stores and learned very interesting uses of this program. For any of our customers who are new to the world of embroidery, MonogramWorks is a wonderful lettering program. At only \$169.99, it's a very inexpensive way to start monogramming with your new embroidery machine. Just remember that there are never enough fonts to do all the monograms you want to do. With MonogramWorks you get 40 fonts as well as monogramming patterns. A perfect way to get started.
